

DO YOU HAVE STUDENTS WHO STRUGGLE TO CONCENTRATE OR PARTICIPATE AT SCHOOL?

SENSORY PROCESSING COURSE FOR TEACHERS

Kids who find it hard to focus and learn, lack coordination or have lots of meltdowns may have issues with their sensory processing.

We'll be explaining sensory processing, how it could be affecting your students and practical strategies for how you can help them at our upcoming teacher course.

Have questions? Email us at hello@occupationaltherapy.com.au or call us on **02 9913 3823**.
